

Gender Pay Gap By Occupation Category

COLOR

I used different colors to represent pay by gender and different shades of same color to represent amount of pay.

Women's Average Annual Pay

Men's Average Annual Pay

Gap between Women's and Men's Annual Pay (small to large)

ICON

I used different icons to represent occupation categories and genders.

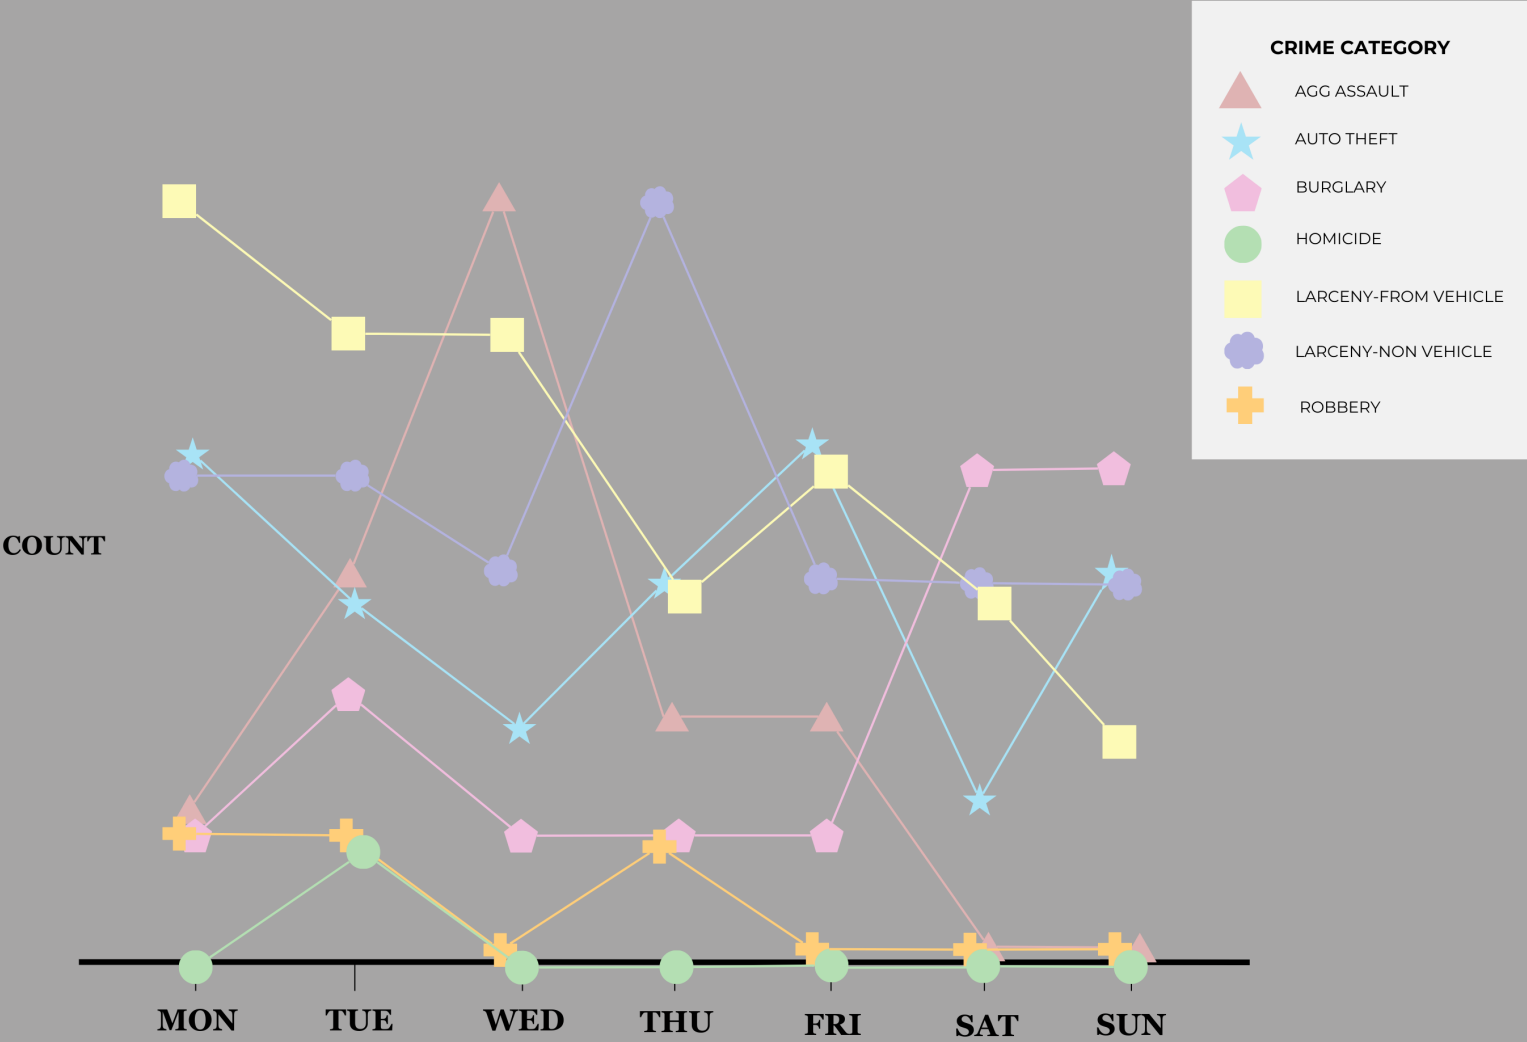

ARITHMETIC OPERATIONS

I used "-" and "/" with icons to represent the relationships between variables.

Crimes In each Day of a Week at Adair Park

COLOR + SHAPE

I paired up color and shape to represent a certain type of crime. The reason I chose two visual factors is because there are a lot of types of crime here, and doing so distinguish them more visually.

FONTS

I chose fonts similar to those in old news papers to create a sense of mystery.

MON Crimes In each Day of a Week at Adair Park

LINE + DOT

I used line graph to represent both amount of crime and their trend throughout the week.
