

# Gender Pay Gap Across Industries

Industry	Average Annual Salary/\$	Pay Gap
Senior Managers & Execs	 79,329  58,101	<b>26.75%</b> (\$21,228)
Law & Justice	 54,170  41,182	<b>23.98%</b> (\$12,988)
Sales & Serving Others	 35,044  27,798	<b>20.68%</b> (\$7,246)
Admin & Organization	 55,149  43,801	<b>20.58%</b> (\$11,348)
Manual Work	 30,462  24,632	<b>19.14%</b> (\$5,829)
Creative & Media	 57,009  46,280	<b>18.82%</b> (\$10,729)
Science, Tech & Engineering	 59,154  48,919	<b>17.30%</b> (\$10,235)
Care & education	 52,827  44,210	<b>16.31%</b> (\$8,616)

## Colors & Icons

Male population #dae5ef

Female population #f4e4ef

I used typical pink/blue colors with icons to represent males/females.

Grey color is used to better separate each row visually.

## Font Sizes & Weights

Various font sizes and weights are used to emphasize/understate different information on the table.

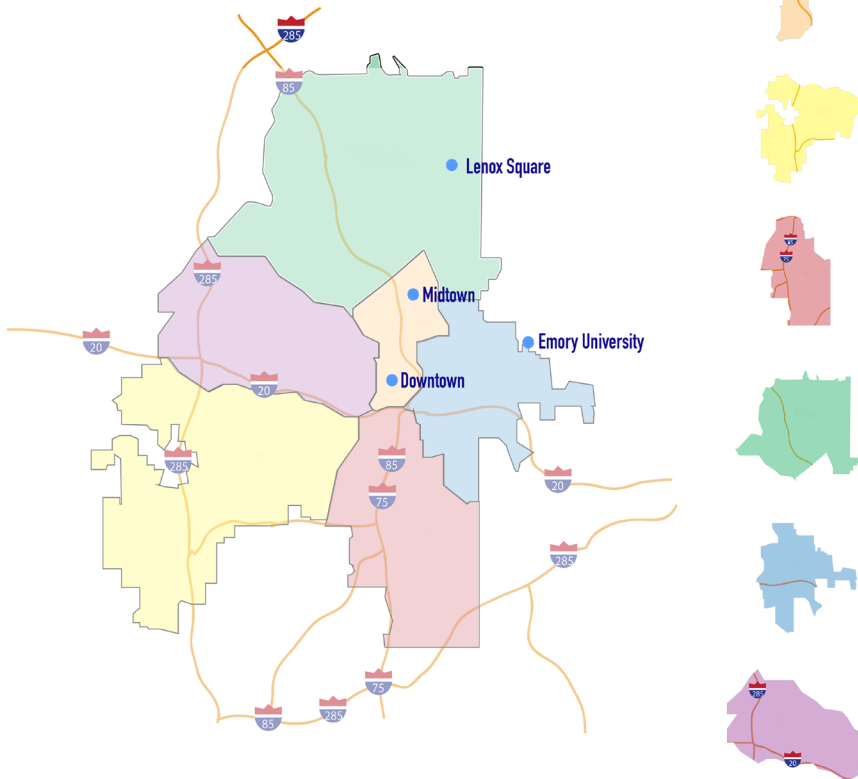

## Orders

The table is in an descending order, sorted by the percentage pay gap.

## Bar lengths

Different bar lengths for male and female population are used to demonstrate the average annual salary amount, which allows comparison across all industries for both genders.

# Atlanta Crime by Police Zones 2020

The heatmap represents the relative severity of the crime in the specific police zone, comparing to other police zones for the same crime. The most severe zone would have 9 icons for each crime, and the other zones' numbers of icons is a relative measure to the number of the most severe zone of that crime.

Homicide	Assult	Auto Theft	Buglary	Robbery	Larceny-Non Vehicle	Larceny-From Vehicle
30	330	632	270	169	866	2,709
36	517	452	395	187	666	678
37	549	463	384	149	595	718
9	196	725	389	115	954	2,091
145	234	515	353	124	866	1,720
21	504	421	329	144	608	671

## ATL Map

The Atlanta map is used to give readers the idea of where each zone locates. The map also highlights important places in ATL.

## Icons

Each crime has an unique icon, and the amount of icons represents the severity of the crime. Adding icons creates tensions and making readers feel the crimes.

## Numbers

The graph includes the absolute numbers of crimes in the right corner, allows readers to better understand the severity of crimes in ATL also through absolute numbers.

## Colors & Orders

The colors represents the relative severity of each crime in each police region, creating a heatmap. The police zones are in descending orders of crime severity.
